REASONS FOR ALLOWANCE

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ravensbergen et al., U.S. 6,832,654; Harris et al., U.S. 3,447,607 disclose a similar method of zonal isolation and fracturing.

Howard, U.S. 3,361,204 discloses a similar method using formation pressure to set packers.

Magee et al., U.S. 4,671,352 and Lebourg, U.S. 3,323,361 discloses a similar device.

Heijen, U.S. 5,103,911 discloses a similar fracture and production tubing for packer inflation.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose all the claimed subject matter including the plurality of production passages in the body and a frac mandrel in the body operable to set the packers and fracture the formation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
